Summary

I am a **Frontend** Software Engineer specializing in user-friendly, interactive web interfaces with React JS and vanilla JavaScript. Proficient in Bootstrap and Tailwind CSS, I create responsive, consistent designs across platforms. A quick learner and team player, I thrive in collaborative environments and stay updated on the latest web development trends.

Latest Projects

[Sticky Tasks](#) - JavaScript Website

- Single-page CRUD app for task management.
- Backend integrated with Node.js, express and mongoose.
- Implemented filtering, searching, validation, and authentication.
- Built using plain JavaScript to showcase foundational skills.

[Cash Tracker](#) - React Website

- React-based SPA for tracking personal finances.
- Features expense tracking, categorization, and detailed statistics (pie and line charts).
- Includes validation and authentication.

[Fresh Cart](#) - React Website

- Developed a responsive e-commerce platform using React and React Query.
- Offers product browsing, cart management, and secure checkout (cash and online).
- Optimized performance by reducing load times, lazy loading, code splitting and clean code practices.
